

Instructions for P2D

1. Open the camera of your Smartphone.
Focus on the QR-Code **of the order**
(not the QR-Code in this instruction guide)

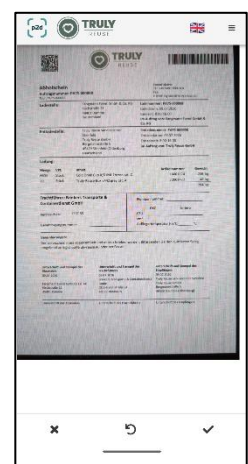

2. Open the scanned link in your browser
3. Choose a language
4. Grant permission to use the camera

5. Focus on the receipt
If necessary, enable „Light“ or “Grayscale”
6. Click on the camera-symbol

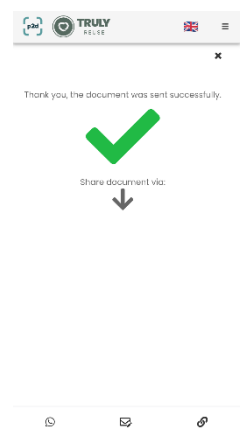

7. Check the scanned image and, if necessary, rotate or discard the image
8. By clicking on the tick, the scanned image will be saved

9. Additional scan(s) can be added
10. Existing scans can be edited here
(rotated again or deleted)
11. By clicking on „send“, the image will be send to the server

12. The scan can now be shared, for example with Dispatch or Accounting.
After selection, WhatsApp or the email app will open, and the receipt can be sent to an email address of your choice.
Alternatively, the link to the receipt can be copied and used.

13. Die Page will can now be closes and no further scans will be safed on the smartphone.

Note:

- An order can be transferred to the server a maximum of 3 times
